

Minutes

Approval of October meeting minutes, approved.

Old business:

Denise's home energy audit scheduled with Jay for Wed Nov. 17 at 11am

A discussion of the open house and recap:

1. Attendance: 10
2. Good questions were asked by the attendees
3. One Follow-up request for an audit was taken
4. Marilyn suggested a follow-up email thank-you, she will write and send

New business:

Discussion moved to recruiting and the following topics were outlined:

1. Need to work on recruiting for committee, will brainstorm ideas for next meeting on Dec. 13
2. Marilyn will check on Morrisville energy committee calendar
3. Denise will check on Craftsbury energy committee calendar
4. Technological advances: FLIR camera photographs visual impact of heat/energy loss. Cost is \$2,500, a Kil-a-watt monitoring device for determining units used over a period of time, and a Blower door for detecting drafts in homes. These items would be helpful for residential energy efficiency but energy committee can't provide at this time.

Other discussion and goals for next meeting and 2018:

1. Getting Efficiency Vermont to attend our meeting in January.
2. Leap event collaboration would be beneficial for our committee
3. Tabling event idea (craft fairs and town meeting)
4. Energy forum dovetail with a leap event. Marilyn will find out when it is.

Meeting adjourned at 7:47

Respectfully submitted by Denise Greene
