

Hyde Park Energy Committee

Meeting Minutes

October 26, 2020

3:00 – 4:00

Attendees: Elisa Clancy, Meg Taylor

Button Up Vermont, Efficiency Vermont Workshops and HPEC participation scheduled for 11/23/20

- This was not discussed because Denise wasn't present, will have Denise follow up with Lea at LCPC.

Setting Priorities for HPEC and working with VECAN.net

(Energy Efficiency and Conservation, Renewable Energy, Transportation and Land Use, Policy and Planning, Education and Advocacy, Financing and Funding)

- Getting on the Planning Commission Agenda to discuss Global Warming Solutions Act – emission measurements to measure baseline and future improvements. Meg will ask Ron about this, in addition to topic below to understand the best way to get involved.
- Town Highway Department partnership opportunity re: capital expenditure and policy to consider EV's whenever new fleet vehicles are purchases. Does planning commission play a role? Meg will ask Ron about this.
 - o Also, discussed bus survey to understand usage levels/patterns and opportunities for increased efficiency. Especially with COVID-19, usage levels are lower and still running busses. Elisa will follow up on this.
- Consult with the Library re: basement renovation project and opportunities for efficiency upgrades to make basement tighter (if haven't already considered). Will ask Denise to follow up on this.
